## THE EXAMPLE OF SUCCESS . . .

Retail sales in Coffee county for March, this year, were 2.3 per cent ahead of March, last year, and 17.2 per cent ahead of February, this year.

These facts are contained in the Alabama Retail Trade bulletin published by the Bureau of Business Research, University of Alabama, under date of May 31, 1961. They are the most recent figures available.

The Bureau of Business Research found that retail sales in Coffee in 1960 were 8 per cent ahead of 1959, after big gains were rolled up in both months of November and December, last year.

If your business has not kept pace, then it behooves each and everyone to look around and see whose business is was that accounted for the Coffee county-wide gains.

Study his methods. See if he did not promote and advertise his values in every way possible. Whatever were his methods, the natural thing to do is to follow the example of success.

### Publicity, That's All...

The crowd which attacked the so-called "Freedom Riders" in Montgomery performed a disservice to Alabama and to the South.

The "Freedom Riders" came South to stir up trouble and attract headlines. Through the Eastern Seaboard States they were unmolested. On through South Carolina and Georgia they went. No trouble, no headlines—none of the publicity they wanted.

Then they reached Anniston. A crowd gave them the very thing they came for. The same at Birmingham. More, much more, of the same at Montgomery. How much better it would have been to let them pass without violence and let duly constituted authorities make arrests when any laws were violated.

At least one news service went beyond the role of news dissemination to be fair. Columbia TV presented a picture of segregation in Chicago which it called the most segregated city in America. Columbia TV presented a broadcast by Edward R. Murrow which pointed out segregation in Washington, D. C. Anyone who has lived in the North and in the South knows that segregation is practiced in both.

But the "Freedom Riders" wanted publicity. It is unfortunate that a group, bent upon taking the law into his own hands, should give it to them.

### The Wisdom of Promotion...

Fortunate it was for merchants of Elba that they selected Thursday, Friday, and Saturday, last week, as Elba Bargain Days. By coincidence, a neighboring city promoted Bargain Days on the same days of the week, each without the advance knowledge of the other.

But the promotion served to let the people in the Elba trade area know that Elba has values just as good as elsewhere. It was a move to be attributed partly to chance but mostly to wisdom.

### 21 YEARS AGO— FROM OUR EARLY FILES...

Members of the ladies Class of the Methodist Sunday School were scheduled to meet members of the Men's class in a softball game at the Elba field.

Mrs. Josephine Frazer Bradley presented her music pupils in a recital in the high school auditorium. The varied program was brought to a close with a vested chorus choir of twenty young voices singing a special arrangement of the hymn, "Just As I Am," and also "Beyond the Setting Sun."

The Violet Rainer Circle of the Methodist Missionary Society met with Mrs. Joe Morgan. After a short business session, an interesting Bible study lesson was given by Mrs. Mayo Prescott. A social hour followed the program when a delightful salad course was served to the following: Mrs. Violet Rainer, Mrs. Mayo Prescott, Mrs. F. A. Farris, Mrs. Boyd Murphree, Mrs. Roberta Childs, and the hostess, Mrs. Morgan.

A mass meeting of the patrons of the local school was called for the purpose of nominating trustees for the local institutions. The meeting was scheduled for the Elba high school auditorium. Six names were to be submitted to the office of the County Board of Education from which three trustees would be selected.

Rev. C. H. Seibert, pastor of the Elba Methodist Church was in Glenwood where he preached the commencement sermon for the Glenwood schools. He was accompanied by Douglas Easters, Rev. Auburn Hayes, evangelist and missionary who had been working in the country for several months delivered the message in the Elba Methodist Church.

### Sparkman Says Ike Hampered Missiles

In the wake of America's first man-into-space venture Senator John Sparkman charged in broadcasts over Southern radio stations during the week end that the Eisenhower Administration in effect hampered missile development at Alabama's Redstone Arsenal.

Sparkman said he would not be critical of the Eisenhower Administration so far as development of solid fuels are concerned. However, he criticized the Eisenhower Administration for "putting the leash on the people at Redstone, including Von Braun and his team."

## Wheat Crop Quotas Set By Freeman; No Vote Date Set

In line with current legislation, Secretary of Agriculture Orville L. Freeman has proclaimed marketing quotas and a national acreage allotment of 55 million acres for the 1962 wheat crop, farmers were reminded today.

According to Lester Gunter, chairman, Coffee County Agricultural Stabilization and Conservation Committee, the Secretary is required by law to proclaim wheat marketing quotas not later than May 15 when the available supply is more than 20 percent above the normal supply. The estimated supply for the 1961-62 marketing year is actually 22.2 percent above the normal supply.

In proclaiming the quotas, Secretary Freeman said, "The action taken today does not by any means preclude the possibility of an improved program for wheat growers this next year. In view of this, we are not now announcing a date for the referendum in which farmers would vote on marketing quotas under the present law."

"We are hopeful that we'll have a more effective method of dealing with the serious problems of wheat supplies and wheat producers' incomes. The great interest of all concerned in fashioning a better program gives much encouragement toward this end. Of course, the decision on the level or support for the 1962 crop also awaits future developments."

To be effective, Chairman Gunter explained, marketing quotas must be approved by two-thirds of the wheat producers voting in a referendum. Under quotas, producers who comply with their acreage allotments may market all the wheat they produce. Producers

who exceed their acreage allotments are subject to marketing quota penalties on their "excess" production if they have more than 15 acres of wheat for harvest.

## Grover Jacobs Gets Degree In Business

Grover Jacobs, son of Mr. and Mrs. R. T. Jacobs and a 1958 graduate from Elba high school, graduated from Troy State College last week with a BS degree in Business Education.

While at Troy State, Grover has been active in many activities. He has worked as head of Audio-Visual materials for the past two years. In this capacity, he assists an education professor in teaching a course entitled Instructional Aids and Their Use in the Classroom. He also has full responsibility for audio-visual equipment.

He was president of the Notary Club, a business organization; vice president of SNEA, an education organization; Chief Justice of the SGA Judiciary Body; member of the Argonauts, an honorary fraternity for men; member of the President's Council; member of the SGA handbook committee, and has been listed on the Dean's List.

Grover's future plans include teaching at Robert E. Lee high school next year in the commercial department and beginning work necessary for attaining his Master's degree.

**MISSIONARY UNION MEETS**

The program was given by Mrs. E. L. Bray, Mrs. Joell D. Hughes and Mrs. Roland Johnson.

## Japs Impressed By U. S. Space Flight

The fact that there was no secrecy surrounding the first successful American attempt to get a man into space has impressed the Japanese, according to Senator John Sparkman, (D., Ala.)

The second ranking member of the Senate Foreign Relations Committee has just returned from visits to Korea and Japan. In a week-end interview broadcast over Southern radio stations Sparkman said that he had talked with

international leaders in both Korea and Japan and that they attached more importance to the United States space feat than they did to the situation in Cuba.

### MUST CONSERVE

Farmers who participate in the 1961 feed grain program must carry out an approved conservation use on an acreage equal to the acreage diverted from corn or grain sorghum, Lester Gunter, Chairman of the Coffee County ASC Committee, reminded growers today. Such acreage must be in addition to the acreage on the farm which is normally devoted to conservation uses.

She Has Found From Experience that she fares Better When She Buys  
From Those Stores Which Advertise Regularly in Newspapers!

# The Wise MERCHANT KNOWS

**HE PROFITS FROM ADVERTISING!**

No business has to advertise. An experienced ad man is the first to disagree with the oft-repeated statement that 'You have to advertise.' Because you don't. But the most successful merchants are those who advertise. Because they want to let their customers know about their latest values and they have no fear to let their competitors know the same as their customers.

There are definite rules how to use it and the first rule is to budget the advertising the same as to budget the rent, payroll, gas, lights and water. Regular advertising is the key-note. No longer is advertising for clearance sales only. Customers want to know about regular price line merchandise too.

And there must be some reason why there is more advertising done in newspapers than in any other media. In fact, there is as much advertising done in newspapers as in the next highest three media combined.

All advertising is good, some better than others!

## BEHIND THE SIGN

What is the story behind this "For Sale" sign? Is it just a house that's for sale, or is this a tale of happiness or sorrow—of success or defeat?

Let's hope this story has a happy ending! But this isn't a world of make-believe we live in. God made us human beings, not puppets. He has given us minds and bodies, nerves and muscles—and weakness as well as strength.

Maybe the story behind this house is a happy one. Maybe it's a sad one. Regardless, the people who lived here, like all of us, will be able to accept both good fortune and bad if there is yet another house in their lives.

The House of the Lord, the Church, has been built to endure through the ages. Here we will always have a home—during our lives on earth as well as throughout eternity.

THE THOUSAND MILE MIRACLE in Florida, could be the 230-mile miracle in Florida and Alabama. It is when the Choctawhatchee and Pea Rivers are fully developed.

The United States Engineers have been in the process of a full study on the two rivers for the past year and a half. President John Creel of the Choctawhatchee and Pea River Improvement Association along with Directors attended a meeting in Mobile with Col. R. W. Love of the U. S. Engineers recently. The group met with Col. Love and a general discussion of the project was held. Col. Love told the group that some three to four locks and dams will be needed if the project of the Choctawhatchee and Pea Rivers is completed.

The Engineers are at present waiting on a report from the National Park Service for the values and benefits of recreational facilities along the two rivers. The U. S. Fish and Wildlife Service is currently investigating fish and wildlife conservation in the river basin. The report of Abbot, Merk, and Company, Industrial Engineers of New York, under contract to the Florida Geological Survey has prepared an excellent report on forestry resources, mineral resources, and economic statistics and potential. According to Col. Love, studies are almost complete by the Engineers on the improvements and preparation cost estimates on the re-location of railroads, highways, and utilities as well as land, damages and other project features.

John Creel said, "We had a telephone conference with Representatives Bob Silkes of Florida and George Andrews of Alabama about industries locating along the two rivers, either in Alabama or Florida. These two representatives pledged their full support, and at the present time here in Florida, as well as in Alabama, feelers are out now trying to find as many industries as possible who will locate on the rivers. If the project goes through, perhaps you've heard of tonnage, well the Choctawhatchee-Pea Rivers need all the tonnage they can carry. If you know of an industry who would locate along the rivers, contact your director in your community. The combined efforts of the people in Florida and Alabama will bring this project to a successful conclusion."

The Choctawhatchee and Pea Rivers can do for Alabama and Florida, what the Gulf Intracoastal Waterways has done the communities in Florida, Alabama, Mississippi, Louisiana, and Texas. The waterway was completed in 1949 and connects Carabelle, Florida to Brownsville, Texas. In its 12 years of use the results have been staggering, carrying as much tonnage as the Panama Canal and more than twice as much as the St. Lawrence Seaway. With the Choctawhatchee and Pea Rivers emptying into this great new waterway, progress will come to Alabama and Florida, and the tiring years of work will be one of combined greatness.
